

深圳市亚晔实业有限公司 Shenzhen Asia Bright Co., Ltd

Product Name: Ceiling Mount PIR Switch with Dip-Switch

Adjustable Delay

Product Model: BRT-317

/1882 罗普瑞

Make your life easy, make your home cozy

Features:

This item uses passive infrared technology to control the lightings. Passive infrared person detector brings the lights (or other load) off when an area is occupied and brings the lights on when there is nobody for a preset delay. It's ideal for use in ultraviolet disinfection rooms, laboratory etc.

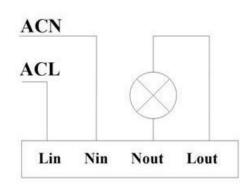

- With L/N line inputs (Require Neutral Wire);
- Install on the ceiling near the lights or fans and no need for rewiring;
- Auto OFF and Auto ON with a delay time of 2 minutes to 60 minutes (custom settings available).
- 360 degree sensing range and no blind angle;
- Working distance from 5 to 7 meters when installed at a height of 2.4 meters;
- Good for all types of loads, such as fluorescent lamps, CFL lamps, LED lamps, incandescent lamps, fans etc.
- Oval panel and fashion design;
- Toggle clip to install on the ceiling, no need for drilling new holes and easy for installation.

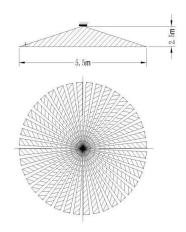

Specifications:

Voltage	220V-240V~50Hz/60Hz	Operating temperature	0℃~30℃
Maximum Wattage	2000W	Relative humidity	Non-condensing 20-90%
Working Diameter	$5\sim$ 7m at a height of 2.4m	Sensing Angle	360 degrees
Dimension	86*86*23mm	Weight	72g

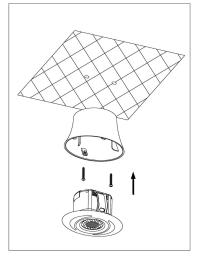

Wiring Diagram:

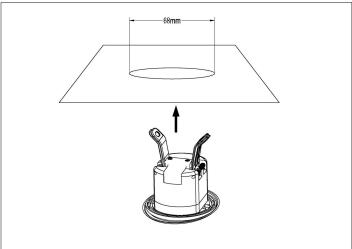

As shown above, connect L (IN) and N $\,$ (IN) to the AC source and connect L(OUT) and N(OUT) to the load

▶ Installation:

Method one: Drill two screw holes in the ceiling and fix the housing onto the ceiling using two screws. The switch can be fit into the housing easily.

Method two: Make a hole of 68mm in diameter, straighten the spring loaded levers, insert the switch into the hole, and the switch can be held against the ceiling.
